Address : Pimple Gurav, Pune 411061

SUMMARY

Computer Science engineering graduate with a strong interest in programming, software development, and technology innovation. Quick learner with excellent problem-solving skills, eager to contribute to team success and apply technical knowledge to solve real-world challenges.

EDUCATION

Bachelor of Technology – Computer Science

Deccan Education Society Pune University, Pune | 2023-2026

Diploma in Electronics and Telecommunication

Cusrow Wadia Institute of Technology, Pune | 2020–2023

EXPERIENCE

Web Development Intern

Koushiki Innovision, Pune

 July 2025 – December 2025

- Developed a dynamic Form Builder web application using HTML, CSS, JavaScript, and jQuery
- Implemented interactive features such as form validation, dropdown menus, autocomplete, and dynamic input fields
- Used AJAX to enable real-time data interaction without page reloads
- Improved UI/UX and ensured responsive web design across devices
- Performed testing, debugging, and basic performance optimization of the application
- Collaborated with the development team during feature implementation and project enhancement

SCADA and PLC Internship

A.S. Automation and Control

 June 2022 – August 2022

- Assisted in the design, implementation, and testing of SCADA and PLC systems for industrial automation projects.
- Collaborated with senior engineers to analyze system performance.
- Gained practical knowledge in industrial communication.

SKILLS

- **Programming Languages:** C, Java, JavaScript
- **Web Technologies:** HTML, CSS, React.js, Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Power BI, Tableau
- **Core Concepts:** Data Structures, DBMS, OOPs

PROJECTS

1. Freelancing Website (MERN Stack)

Tech Stack: MongoDB, Express.js, React.js, Node.js

- Developed a full-stack freelancing platform with role-based login
- Enabled job posting, application tracking, and freelancer selection
- Built responsive UI using React

2. Smart Budget-Based Trip Planner

Tech Stack: HTML, CSS, JavaScript, OpenAPI, NLP

- Built a web app to plan trips across Maharashtra within budget
- Integrated chatbot using NLP for personalized itineraries
- Designed Explore page with filters and expense tracker

3. Internship Portal (Mini Project)

Tech Stack: HTML, CSS, JavaScript

- Developed a portal connecting students with internships
- Implemented posting, profiles, and application features
- Focused on responsive and user-friendly design

4. Desktop Assistant (Python Project)

Tech Stack: Python, SpeechRecognition, pyttsx3

- Built a voice-controlled assistant for task automation
- Features: reminders, weather updates, messaging, calculations

5. Welfare Fund Distribution System

Tech Stack: Next.js, React.js, TypeScript, Node.js, MongoDB, Solidity, Hardhat, MetaMask

- Built a blockchain-based welfare portal with OCR document verification and MetaMask integration.
- Implemented smart contract-based fund transfer, grievance tracking, and beneficiary status management.

Certifications

- C Programming
- Java Programming
